## Sublease regulations

1. Every main tenant who rents a room for more than three months can sublet his/her room on request for a **maximum period of three months**. The whole period of sublease must be permitted in advance. No extension can be granted afterwards.
2. In **exceptional cases** subleases of more than three months (six months maximum) are possible **only in case of university-related stays abroad and mandatory internships during studies**. Proofs must be enclosed with the application.
3. A sublease in the notice period and at the end of the tenancy is not possible.
4. All students enrolled in a state university can live in a residence hall as subtenant, if their occupation in Aachen is related to their studies. Proofs must be enclosed.
5. Applications for sublease have to be submitted to the housing office five days before the requested sublease start date. The main tenant has to hand over the keys to the janitor. The only person to give the key to the subtenant is the janitor.
6. Between two subleases there has to be a period of three months for the main tenant and the subtenant.
7. The subtenant must be introduced to the janitor, the hall representative, the allocation committee and the floor representative/roommate. All parties mentioned may raise objections.
8. Everything mentioned in the tenancy agreement is also valid for subtenants.
9. A main tenant who allows somebody to live in his/her apartment without having applied for a sublease gets one warning; should it happen again Studierendewerk can terminate the rental agreement.
10. The main tenant is obligated to follow the rules of the "Bundesmeldegesetz" (German national registration law, valid since January 11, 2015). Not Studierendewerk, but the main tenant is also obligated to issue the necessary "**Wohnungsgeberbestätigungen**" (**lessor agreements**) to the subtenant. In an event of default the city of Aachen may impose a maximum fine of 1,000 €.
11. We recommend that the main tenant makes a contract with the subtenant that contains and clarifies the rights and duties of both contracting parties.
12. It must be noted that the **main tenant** is responsible for **punctual rent payment** throughout the sublease. Furthermore, **the main tenant is responsible for the condition of his/her rented room.**
13. **If, for some reason, the rental agreement is terminated during the permitted period of sublease, the sublease will automatically end as well.**
